SUMMARY

Creative Multimedia Computing student with experience in UI/UX design, digital content creation, and interactive media development. Skilled in Figma, Blender, Unity, and multimedia storytelling with a strong interest in digital marketing, content creation and creative media production. Passionate about designing engaging digital experiences and visual content for modern audiences.

WORK EXPERIENCE

IT Networking Intern | Universiti Teknikal Malaysia Melaka (UTeM)

08/2022-12/2022

- Assisted in configuring and maintaining network hardware, including routers, switches, and access points across the campus infrastructure.
- Troubleshooted local area network (LAN) and Wi-Fi connectivity issues, providing efficient technical support.
- Assisted in network cabling, patching, and hardware installation within the server rooms and campus buildings.
- Collaborated with senior network engineers to document network topologies, IP addressing schemes, and system configurations.

Sales Specialist / Retail Worker | Gadget Store (Xiaomi/Redmi)

03/2023-09/2023

- Provided expert technical advice and product recommendations to customers on Xiaomi and Redmi ecosystems, driving daily sales targets.
- Utilized strong communication skills to identify customer needs, close sales and promote current store offers.
- Managed inventory, resolved customer hardware and software inquiries and maintained up-to-date knowledge of mobile and IoT consumer tech.

EDUCATION

Bachelor of Computer Science (Multimedia Computing) with Honours

Expected Graduation: 2027

Universiti Tun Hussein Onn Malaysia

- Relevant Coursework: UI/UX Design, Multimedia Development, IoT Hardware Integration, Computer Networks.
- Final Year Project (Expected): Developing "Ngopi", an interactive Augmented Reality (AR) multimedia mobile application built using Unity, Blender, Figma, and Visual Studio Code.
- Development Tools: Adobe Illustrator, Blender, Figma, Unity, Visual Studio Code, Firebase.

Diploma In Networking Technology

Dec 2019 - Dec 2022

Politeknik Muadzam Shah

- Coursework in Computer Networking, Routing and Switching and System Administration.
- Proficient in network engineering tools and hardware such as Cisco switches and routers, Packet Tracer, Wireshark and LAN cabling infrastructure.
- Developed "The 3rd Eye", an IoT-enabled smart walking stick utilizing ultrasonic sensors and wireless connectivity to assist visually impaired individuals in obstacle detection.

ADDITIONAL INFORMATION

- **Technical Skills:** UI/UX Design & Prototyping (Figma), Multimedia & Interactive Media Development, 2D & 3D Asset Creation (Unity, Blender, Adobe Illustrator), Mobile & Web Application Design, Microsoft Office Proficiency.
- **Languages:** English & Malay
- **Awards/Activities:** Received the Best Student Award for academic excellence during the diploma graduation in 2023.
